

Think Sustainable World ETF screening principles

Think ETF Asset Management has chosen to partner with EIRIS for the sustainability screening component of the Think Sustainable World ETF.

EIRIS is a leading global provider of research into corporate environmental, social and governance performance. An independent, not-for-profit organisation, we work to help our clients develop the market in ways that benefit investors, asset managers and the wider world.

Companies are excluded from the index according to the following EIRIS criteria and thresholds, as defined by Think ETF Asset Management:

- **Adult entertainment/pornography**
 - Companies who derive 3% or more of their turnover from adult entertainment services
- **Alcohol**
 - Companies who derive 5% or more of their turnover from alcohol production
- **Animal testing**
 - Companies who provide animal testing services
 - Companies who derive 3% or more of their turnover from the manufacture of cosmetics intermediates tested on animals
- **Controversial weapons**
 - Companies whose products or services constitute whole or strategic parts for nuclear weapons systems
 - Companies for which EIRIS has found clear evidence of involvement in the production of cluster munitions systems, or the production of key parts of, or the provision of services for cluster munitions
 - Companies who have not addressed allegations of involvement with anti-personnel landmines
 - Companies linked to the manufacture of chemical or biological weapons
- **Firearms**
 - Companies who derive any turnover from the manufacture or sale of firearms or related products
 - Companies who derive any turnover from the manufacture or sale of civilian firearms or related products
